

KitchenAid®

Pure Power Blender

Blend the rules with the KitchenAid® Pure Power Blender. The precision speed knob control, 360 asymmetrical blade design and vented lid means confidence and control in making your favorite recipes just the way you like them.

The Pure Power Blender has a precision speed control knob which lets you glide between speeds 1 to 10 to create your desired blends.

A vented lid allows steam to escape, enabling you to create hot recipes without waiting for ingredients to cool down

The Pure Power Blender allows you to make what you crave with complete control
