

KitchenAid®

THE NEW ESPRESSO COLLECTION

Since 1937, KitchenAid has been dedicated to empowering makers in the kitchen, extending beyond culinary pursuits to include a rich legacy in craft coffee. Today, the brand introduces an espresso collection rooted in design, craftsmanship and stand-out user experience to empower consumers to explore a world of espresso drinks at home, just the way they like.

Inclusive of one semi-automatic and three fully-automatic offerings, the new KitchenAid® Espresso Collection introduces a world of espresso at home, where exploration feels effortless, elevated and exciting. Available April 8th, 2024, the KitchenAid® Espresso Collection has been certified by Quiet Mark as some of the quietest machines in the category, helping to create a calm environment in your home.

Semi-Automatic

DESIGNED FOR EASY HANDS-ON ESPRESSO EXPLORATION

Fully-Automatic

ENJOY A WORLD OF ESPRESSO DRINKS AT YOUR FINGERTIPS

KitchenAid®

THE NEW ESPRESSO COLLECTION

Semi-Automatic

Think of this as the residential version of what baristas do at a coffee shop, but with a more sleek design and endless possibilities at your fingertips. As the more hands-on offering, the user is required to grind, dose and tamp grounds into a portafilter before the machine pulls a shot. If milk is required for the drink, it is steamed and frothed manually using a steam wand before being added to the cup.

- **Designed for easy hands-on espresso exploration:** Take your espresso-based drinks to the next level—create wherever your curiosity takes you—from Espresso, Americano, Latte, to Cappucino and much more.
- **Integrated Conical Steel Burr Grinder:** Experience superior grinding with stainless steel conical burrs, which make uniform-sized grounds so you can consistently extract your best flavor for your espresso.
- **Smart Dosing Technology:** Get the grind without the guesswork. Smart Dosing Technology eases preparation by producing the ideal volume and consistency for one or two shots of espresso at the push of a button.
- **Manual Dosing:** Personalize espresso by manually dosing the exact amount of grounds needed. With the Easy-Tamp Portafilter in the grinding cradle, hold down the button until it reaches the preferred amount of grounds, then release.
- **Anti-Static Technology:** Enjoy a clean grinding experience, with Anti-Static Technology that helps reduce static charge so coffee grounds won't make a mess of your countertop.
- **8 oz. 225 g Removable Bean Hopper:** Want to mix it up with a new roast? Simply twist and lift to easily remove the bean hopper to empty, exchange or refill with fresh beans. Bean swapping made simple.
- **Easy-Tamp Portafilter:** The 58mm Easy-Tamp Portafilter is designed with recessed spouts to enable a flat base for easier, more stable tamping on a flat surface—versus a traditional residential espresso portafilter—resulting in consistent, optimal flavor and rich crema.
- **Multi-Angle Steam Wand:** Easily position the steam wand to the perfect angle in the milk pitcher to create rich foam or steamed milk based for a variety of drinks at home.
- **Easy Cleaning:** Stay notified of when it's time to run a cleaning cycle with the "Clean Me" notification so you can keep the machine performing at its best.
- **Built to Last:** Metal-clad construction ensures durability and longevity.
- **Quiet Mark:** Certified Quiet Appliance by Quiet Mark.
- **Included Accessories:** Stainless Steel Easy-Tamp Portafilter, Tamper with high-quality stainless steel base, Multi-Angle Steam Wand, 355ml Milk Pitcher, 2.5L Water Tank, 4 Filter Baskets, and Large Capacity Drip Tray.

Semi-Automatic Espresso Machine
with Burr Grinder - KES6551
MSRP \$699.99

KitchenAid®

THE NEW ESPRESSO COLLECTION

Fully-Automatic

This option eliminates most of the manual steps of espresso making but does not remove them, providing personalized and authentic espresso drinks at the touch of a button.

- **Enjoy a world of espresso drinks at your fingertips:** Enjoy all of your favorite espresso beverages at home with the push of a button. Personalize and store your own recipes based on strength, volume and temperature for delicious espresso drinks made by you.
- **Espresso designed to fit your life, whatever your life looks like:** Designed to integrate into your home seamlessly and bring everything you love about espresso right to your countertop.
- **Up to 40+ Drink Recipe Options:** Create personalized drinks with the touch of a button and choose from 15 (KF6), 20+ (KF7) or 40+ (KF8) recipe options like Espresso, Americano, Latte, Cappuccino and more.
- **Up to 5" Touch Screen:** Easily select and personalize your favorite espresso drinks with an intuitively designed 2.4"(KF6) color display, 3.5" (KF7) or 5" (KF8) color touch screen.
- **Personalized Favorites:** Ultimate control at the touch of a button. Explore and personalize preferred drinks from Americanos to Lattes, Macchiatos and more with the ability to create up to four (KF6 and KF7 models) or six (KF8 model) user profiles with shortcuts to customized favorites. Customize the strength, temperature, order of milk or coffee, and size of the drink to perfection.
- **Integrated Conical Steel Burr Grinder:** Experience superior grinding with stainless steel conical burrs, which make uniform-sized grounds so you can consistently extract your best flavor for your espresso.
- **9.5 oz. 270 g Removable Bean Hopper:** Want to mix it up with a new roast? Simply twist and lift to easily remove the bean hopper to empty, exchange or refill with fresh beans. Bean swapping made simple.
- **Automatic Milk Frothing and Heating:** The automatic milk frothing and heating feature allows for the exact amount of milk needed for a deliciously balanced espresso drink with the push of a button. Steam, heat or froth the exact amount of milk every time.
- **Plant-Based Milk Mode (KF8 only):** The unique plant-based milk mode allows for steaming, heating and frothing not just dairy, but also alternative plant-based milks, like almond, oat or soy, at the touch of a button.
- **Pre-Ground Coffee Bypass Chute:** Decaf, anyone? Use the pre-ground coffee bypass chute to skip what's in your grinder and get a quick change of something new.
- **Easy Cleaning:** Stay notified of when it's time to run one of the machine's automatic cleaning cycles with the "Clean Me" notification so you can help keep the machine performing at its best.
- **Built to Last:** Metal-clad construction ensures durability and longevity.
- **Quiet Mark:** Certified Quiet Appliance by Quiet Mark.
